

February 19, 1975

of the body to take up LB 104 before 60 and 62. I say this because 104 is the bill, really, and 60 and 62 are only bills that support 104, and are only a part of it, and I think that Senator Goodrich that has an interest in these three bills will agree with me on this proposition, and I would like permission, at this time, to take up LB 104 before 60 and 62.

SPEAKER: Will that require bracketing 60 and 62, Mr. Clerk? We can lay it over. Is that OK with you, Senator Goodrich? The chair recognizes Senator Goodrich.

SENATOR GOODRICH: Mr. President, the thing that we should do is just pass over 60 and 62, take up 104. Then we will come back and take up 60 and 62. All we are doing is putting 104 in front of the other two. The reason being that 104 is the main bill. The other two are companion bills to 104. So, if we could just take up 104 now, and then, we will come back and pick up 60 and 62.

SPEAKER: OK, Mr. Clerk, will you read LB 104.

CLERK: LB 104. Read title. There are a series of amendments, Mr. President. The first amendment is from Senator Kremer's Public Works Committee.

SPEAKER: Senator Kremer.

SENATOR KREMER: Mr. Chairman, I would suppose, as a matter of procedure, this amendment of the Public Works Committee should be adopted. However, the amendment is the bill that was heard and discussed by the Committee prior to the hearing. The Committee made the decision on their part that the bill to be heard was the amendments. If we heard the bill as...before you in your white copy, if you want to turn to your book of bills and you will notice there is a white copy which is the amendment and it was the bill. So, actually, we discussed the bill. This is the bill, but as a matter of procedure, I move that the Committee amendment be adopted because this is the bill.

SPEAKER: Any further discussion. The question is, to adopt the Committee amendment. Record your vote. Have you voted? Senator Savage is voting aye. Record the vote.

CLERK: Senator Savage voting aye. 28 ayes, Mr. President, on motion to adopt.

SPEAKER: The Committee amendments have been adopted. Senator Kremer.

SENATOR KREMER: Mr. Chairman, perhaps Senator Mahoney, the Chairman of the Executive Committee, wishes to make a statement at this time. If not, I would yield to Senator Goodrich who brought the bill to the Committee and the Committee agreed to introduce the bill.

SPEAKER: Do you yield, Senator Mahoney? The chair recognizes Senator Goodrich.

SENATOR GOODRICH: Mr. President and members of the body, LB 104 is a bill to let power districts and municipalities jointly build generating facilities. As you all know, we have been facing and are facing right now a problem as to how we can create sufficient generating facilities to keep up with the public demand for electricity. This bill is a bill that would let power districts cooperate with other governmental entities,
